HOW ENGAGEMENTS GROW OVER TIME

All engagements follow a structured progression. This protects both parties and ensures the working relationship is right before longer commitments are made.

Milestone	When	What happens
Discovery call	Before we start	Free 30-minute call to discuss your needs, scope, and fit. No commitment required.
Trial period	Month 1 – 2	We work together on an hourly or monthly basis. No retainer yet — this is a mutual assessment period.
2-month review	End of Month 2	Structured check-in covering fit, feedback, workload, and scope. Rates and hours may be adjusted based on what the work actually requires.
Retainer offer	Month 6	If the relationship is working well, I will offer a retainer arrangement. The client commits to a 6-month period, paid monthly. Both parties agree the total value and monthly breakdown in writing before the retainer begins.
Annual contract	Month 12+	For long-term engagements, a formal annual contract is available with negotiated terms, priority availability, and agreed rate locks.

WHAT EVERY ENGAGEMENT INCLUDES

- A free 30-minute discovery call before any commitment is made
- A clear written scope agreement before work begins — no ambiguity about what is covered
- Weekly check-ins, async or live, depending on your preference
- Transparent communication throughout — you will always know where things stand
- Flexibility within packages — these are a guide, not a rigid box

Project-Based Work

One-off projects are available and quoted individually. Examples include: event coordination support, research and reporting, documentation builds, records system setup, workflow design, CRM setup and data entry. Get in touch with a brief description of what you need and I will send a project quote within 48 hours.

Sectors I Know Well

Education · NGOs & nonprofits · Health and community organisations · Sports and events · Creative industries · Early-stage startups

PAYMENT

Payment details are shared privately after scope and terms are agreed. The following options are available:

- Bank Transfer — direct to a Ugandan bank account (preferred for local clients)
 - Western Union — international transfer, received in Uganda
 - Sendwave — direct to MTN or Airtel Mobile Money (works well for UK and US senders)
-

RATE DISCLAIMER

All rates listed are standard starting points and are subject to adjustment based on the following factors:

- Workload and complexity — if actual scope exceeds package coverage, rates will be reviewed by mutual agreement
- Client budget — where budget constraints exist, a reduced scope can be agreed rather than a reduced rate for full-scope work
- Rush and overtime — same-day or next-day turnaround is charged at 1.5x; hours beyond agreed weekly maximum at 1.25x
- Tools and data costs — any tools, software subscriptions, or data costs required are covered by the client, either directly or as a flat monthly allowance agreed in advance
- Retainer adjustments — retainer rates are reviewed at the 2-month check-in and at any contract renewal point

These rates are valid as of June 2026 and may be updated periodically. Clients on active retainers will receive 30 days written notice of any rate change.
